

## Health Care & Perry Mason

Most will agree that when it comes to icons, Perry Mason stands alone at the Bar. Brilliant as brilliant can be, honest as the day is long, and an unparalleled genius at uncovering the truth. But when Perry needed qualified testimony on a medical dilemma, he called in the expert, a doctor. So it is in the YEAR OF OUR LORD 2010, Perry Mason is gone. Honesty and truth are missing. And a lawyer is now considered 'brilliant' if he can lie and manipulate good enough to get a guilty client 'off'. Instead of reform, Health Care becomes an act of defiance against the Founding Fathers, the American People, and The United States Constitution.

**In the Spirit of Perry Mason, it only takes the one final question to reveal the true crime of it all;**
