

The \$64 Million Question - The Answer.

'Someone please tell me what the HELL's wrong with all the people that run this country?'

**OK Patriots, You and everyone else keep asking this.
The answer is simple and very obvious;**

- Our 'Leaders' Do Not Think Like Us -

In the book, 'How Lawyers Lose Their Way' the authors, both law professors, delineate 'the way lawyers are taught to think and reason. They show how legal education and practice have been rendered arid and dull by formalism, a way of thinking that values precedent and doctrine above all, exalting consistency over ambiguity, rationality over emotion, and rules over social context and narrative.'

Scandal, disgrace, morals, patriotism, faith, religion, fairness, compassion, equality, life and death are only matters to be adjudicated and produce billable hours and self serving laws.

And so everyone keeps reading and watching the latest political decisions and policies and just about EVERYONE shakes their head in disbelief. 24/7 on every network, in every newspaper and in most Blogs, they keep trying to explain the upside down and totally illogical decisions of our 'leaders' who are supposed to represent OUR thinking and OUR wishes.

Well here at GLOOG the answer is an obvious one but one that most refuse to recognize and therein lies the real problem;

America is no longer a Republic.

America is now an Oligarchy

Truth, emotion and common sense are foreign to these narcissistic Lawyer/Leaders.

In her book 'The New American Revolution' Tammy Bruce recognizes this 800 pound Elephant in The Room:

Politics is a game of seeking power. A certain type of person is attracted to that game. The political scene is mainly populated by the elites, those who had access to money and power that facilitated their political ascent.

It also doesn't help that the majority of US Senators are lawyers. That alone explains the eventual disconnect between politicians and their constituencies, the lack of principles and moral relativism among many of our office holders.

It is the nihilism and moral relativism drilled into the students at law school that ultimately provide this nation with politicians who have apparent difficulty discerning right from wrong, or even caring to make the assessment at all.

Put people pursuing power in an environment where right and wrong are nothing more than bothersome side issues and you get the march toward totalitarianism, regardless of the nation, the democratic system, or the goodness of the people."

Anyone who may be skeptical of the impending doom being perpetrated by the lawyer class in America need only to read 'Lawyers Destroying America' by Sammy Sorrell.

This prophetic book was published in 1997 and is the Bible for all who recognize the cancer that is destroying America.

Sammy Sorrell does a complete and masterful job of exposing in great detail how this cancer has managed to consume the American government and American culture. He leaves no stone unturned in answering how and why America is no longer The Land of The Free but has become The Land of Lawyers who control every aspect of our lives.

Their dominance of the Judiciary did not satisfy them. With the help of an apathetic and gullible electorate, lawyers have managed to take over the legislature and the Executive branches of local, state and the Federal government.

As Mr. Sorrell says, this 'Parasitical Culture of Lawyers are Destroying America.' The cancer that has spread throughout America for decades will soon become fatal unless the tumor is finally exposed and removed.

This book exposes this tumor better than any before or since.
GLOOG is the surgical tool to remove it.
